

Download Liposuction The Big Fat Story

Comedian and actor Frank "The Big Guy" Payne lends his body to science to show viewers what's going on inside his obese body. Doctor and scientists use the latest medical advances to reveal the shocking truth of what more than 100 pounds of excess fat does to the body's heart, liver, bones, and joints. This film is the story of a man determined to fix his habits and his ill health. Cost: \$2,300-\$3,800 Liposuction . Courtesy of Men's Plastic Surgery Manhattan Liposuction (which Dr. Steinbrech refers to as "liposculpting") typically takes away fat from around the abdomen so as ...She secretly flew to Turkey earlier this month, after surgeons in the US refused to operate and advised her against doing the procedure as there was no excess fat to extract. "Mommy, why is your body so big?" Asked the 5 year old daughter... "If you don't change what you eat, you will have a heart attack"...said the doctor "Why can't you just get it together for the kids before your husband leaves you?" Shouted the overbearing mother in law.
