Bernd Heinrich (born April 19, 1940 in Bad Polzin, Germany), is a professor emeritus in the biology department at the University of Vermont and is the author of a number of books about nature writing and biology. Heinrich has made major contributions to the study of insect physiology and behavior, as well as bird behavior. In addition to many scientific publications, Heinrich has written over a ...A crocodile's physical traits allow it to be a successful predator. Its external morphology is a sign of its aquatic and predatory lifestyle. Its streamlined body enables it to swim swiftly; it also tucks its feet to the side while swimming, making it faster by decreasing water resistance. Crocodiles have webbed feet which, though not used to propel them through the water, allow them to make ...The account of Noah and the Ark is one of the most widely known events in the history of mankind. Unfortunately, like other Bible accounts, it is often taken as a mere fairy tale.. The Bible, though, is the true history book of the universe, and in that light, the most-asked questions about the Ark and Flood of Noah can be answered with authority and confidence.
